

VH1100 Section on Cardiology and Cardiac Program: Day 1 Morning Challenges, Progress, and a Path Forward After COVID Crisis

Friday, October 8

8:00AM – 12:00PM CDT

This program will address challenges posed by the COVID-19 pandemic impacting patient care and education in pediatric cardiology. It also will define the path forward to improve access to care and education of trainees based on lessons learned. The program will conclude with presentation of the Young Investigator Award abstracts.

- 8:00AM **Welcome**
Ritu Sachdeva, MD, FAAP; Stuart Berger, MD, FAAP
- Symposium 1: Moving Beyond the COVID Crisis: Lessons Learned and Future Directions
Moderator: Stuart Berger, MD, FAAP, Christopher Snyder, MD, FAAP
- 8:15AM **Caring for Children With Cardiac Involvement With MIS-C**
Kevin Friedman, MD
- 8:35AM **Changes in Health Care Delivery to Our Patients**
Carolyn Altman, MD, FAAP
- 8:55AM **Training and Mentoring Fellows During the Pandemic and Beyond**
Lowell Frank, MD
- 9:15AM **Addressing Racial and Ethnic Health Care Disparities in Patients With Congenital Heart Disease**
Keila Lopez, MD, MPH, FAAP
- 9:35AM **Q&A**
- 10:00AM **Coffee Break**
- 10:15AM **Young Investigator Award Abstracts**
Moderators: Jonathan Johnson, MD, FAAP, Daphne Hsu, MD, FAAP
- 10:15AM *Demonstrating Responsiveness in the Pediatric Cardiac Quality of Life Inventory in Children and Adolescents with Heart Disease*
- 10:30AM *Increased Central Venous Pressure Is Associated with Impaired and Worsening Renal Function in Children with Cardiovascular Disease*
- 10:45AM *Multiparametric CMR Findings in mRNA COVID-19 Vaccine-induced Myocarditis: A Case Series*
- 11:00AM *Echocardiographic Findings in Adolescents Presenting for Sports Clearance Following COVID-19*
- 11:15AM *Early-onset Late Gadolinium Enhancement Is a Prognostic Factor for Cardiomyopathy Young Patients with Duchenne Muscular Dystrophy*
- 11:30AM *Factors Associated with Mortality and Adverse Outcomes in Infants Undergoing Truncus Arteriosus Repair*

11:45AM *Incidence and Description of Gastrostomy Tubes in Neonates and Infants Undergoing Congenital Cardiac Surgery*

12:00PM **Adjourn**
