

VH1201 Joint Program: Section on Cardiology and Cardiac Surgery and Section on Hematology-Oncology: Day 2 Afternoon

Approach to Cardiovascular Complications in Childhood Cancer Survivors

Saturday, October 9
1:00PM – 5:00PM CDT

This program will highlight the importance of early recognition and treatment of cardiotoxicities in childhood cancer survivors. It also will discuss the importance of a collaborative and multidisciplinary approach for screening and managing cardiovascular complications in these patients. The program will conclude with research abstract presentations.

Symposium 4: Pediatric Cardio-Oncology: An Emerging Field
 Moderators: *Thomas Daniel Ryan, MD, FAAP; Nino Carlo Rainusso, MD, FAAP*

- | | |
|--------|---|
| 1:00PM | Cardiotoxicities in Childhood Cancer Survivor
<i>Kasey Leger, MD</i> |
| 1:20PM | Knowledge Gaps and Practice Variation in the Care of Pediatric Cardio-Oncology Patients
<i>Nino Carlo Rainusso, MD, FAAP</i> |
| 1:40PM | How to Start a Multidisciplinary Cardio-Oncology Program With Integrated Clinical and Research Aims
<i>Thomas Ryan, MD, FAAP</i> |
| 2:00PM | Strategies for Monitoring and Intervention for Cardiovascular Complications in Childhood Cancer Survivors
<i>Kirsten Rose-Felker, MD, FAAP</i> |
| 2:20PM | Q&A |
| 2:40PM | Break |
| 3:00PM | Research Abstract Presentations
<i>Moderators: Shubhika Srivastava, MD, Jeffrey Anderson, MD, FAAP</i> |
| 3:00PM | <i>Parental Understanding After Prenatal Cardiology Consults for Normal Fetal Echocardiogram and Severe Congenital Heart Disease</i> |
| 3:15PM | <i>Detrimental Intrauterine Stress Exposure and Post-natal Outcomes in Prenatally Diagnosed Congenital Heart Disease</i> |
| 3:30PM | <i>Fetal Echocardiographic Assessment of Right Ventricular and Tricuspid Valve Function in Hypoplastic Left Heart Syndrome: Correlation with Postnatal Outcomes</i> |
| 3:45PM | <i>Utilization of the International Criteria for Electrocardiogram Interpretation in Middle and High School Athletes</i> |
| 4:00PM | <i>Cardiac Injury and Severe Outcome in Children and Adolescents with COVID-19</i> |
| 4:15PM | <i>Imaging of the Porcine Fossa Ovalis Using Optical Coherence Tomography</i> |

4:30PM *Partial Pulmonary Venous Return Repair with and Without Atrial Septal Defects: A Multicenter Analysis*

4:45PM *Obesity in Pediatric Congenital Heart Disease: The Role of Age, Disease Severity, and Sociodemographic Factors*

5:00PM **Adjourn**
