

VH1302 Section on Cardiology and Cardiac Program: Day 3

Sunday, October 10

8:00AM – 12:00PM CDT

This program will include the section chair's report as well as the Founder's Award and Young Investigator Award presentations. The scientific symposium will focus on advances in the care of single ventricle hearts and management of long-term complications following Fontan. An update will be provided on National Pediatric Cardiology Quality Improvement Collaborative (NPC-QIC) research activities.

8:00AM	Chair Report and Committee Updates <i>Moderator: Stuart Berger, MD, FAAP</i>
8:30AM	Young Investigator Awards <i>Moderator: Jonathan Johnson, MD, FAAP</i>
8:40AM	Research Award Presentations <i>Moderator: Daphne Hsu, MD, FAAP</i>
8:45AM	Loss of PRDM16 causes pediatric cardiomyopathy through aberrant TGFb-signaling <i>Andrew Landstrom, MD, FAAP</i>
9:00AM	A Novel Tool for Percutaneous Implantation of Pacing and Defibrillation Leads in Small Children and Infants <i>Rohan Kumthekar, MD, FAAP</i>
9:15AM	Founder's Award Presentation <i>Award Presenter: Roberta Williams, MD, FAAP</i> <i>Award Recipient: Josephine Isabel-Jones, MD</i>
9:45AM	Maris Serratto Master Educator Award Presentation <i>Award Presenter: Stuart Berger, MD, FAAP</i> <i>Award Recipient: Gil Wernovsky, MD</i>
10:15AM	Break
	Symposium 5: Advances in the Care of Single Ventricles <i>Moderators: Joseph Rossano, MD, FAAP; David Brown, MD, FAAP</i>
10:30AM	Novel Approaches in Prenatal Management of Hypoplastic Left Heart Syndrome <i>Nelangi Pinto, MD, FAAP</i>
10:50AM	Managing Extracardiac Complications Following Fontan <i>Dave Goldberg, MD</i>
11:10AM	Regenerative Therapies for Single Ventricle Hearts <i>Sunjay Kaushal, MD</i>
11:30AM	What's New With Research and Collaborations at NPC-QIC <i>Jeffrey Anderson, MD, FAAP</i>
11:50AM	Q&A
12:00PM	Adjourn
