

VH1320 Council on Child Abuse and Neglect Program Children Exposed to and Endangered by Drugs

Sunday, October 10

9:00AM – 11:00AM CDT

The opioid epidemic has influenced parents' ability to safely care for their children. This program will discuss prevalence and risk associated with drug exposure in children; modalities for drug screening and importance of confirmatory testing; and ways pediatricians can partner with child welfare and community resources to mitigate early childhood adversities related to drug exposure.

- 9:00AM **Welcome**
Award for Outstanding Service to Maltreated Children
Moderator: Norrell Atkinson, MD, FAAP
Presenter: Suzanne Haney, MD, FAAP
