

## VH1323 Section on Simulation and Innovative Learning Methods Program Clinical Event Debriefing: How-to Guide

**Sunday, October 10**

**9:00AM – 11:00AM CDT**

Clinical event debriefings can lead to better team performance, system improvements, and staff stress reduction. However, debriefing is rarely performed due to perceived barriers. This program will explore the benefits of clinical event debriefing, the process of conducting a debriefing, and ways to overcome barriers.
