

VH1355 Section on Adolescent Health Program

Update on Contemporary Adolescent Health Issues

Sunday, October 10

1:00PM – 3:00PM CDT

This educational program will provide important updates on three key issues affecting adolescents: contraception, opioid misuse, and disordered eating. Each presentation will include discussion of health disparities, the impact these issues have on specific populations, and opportunities for providing optimal and equitable health care for all adolescents.

- 1:00PM **Welcome and Program Overview**
Moderators: Paritosh Kaul, MBBS, MD, FAAP; Peggy Stager, MD, FAAP
- 1:05PM **Update on Contraception in Adolescents**
