

## VH1400 Council on Children and Disasters Program

### Protecting the Medical Home in Disasters: Policies, Innovations, and Practices

Monday, October 11

8:00AM – 12:00PM CDT

Leaders in the field will discuss the optimization of medical care using the medical home and telemedicine and how national and state approaches/policies have impacted pediatric care during the COVID-19 pandemic. Breakout interactive sessions will include focused discussions specific to fires, hurricanes, and the pandemic: what is working and what needs work.
