

VH1470 Council on Foster Care, Adoption, and Kinship Care Program

Helping Our Patients and Their Families Navigate Specific Health Care Needs

Monday, October 11

3:00PM – 5:00 PM CDT

This program will focus on the developmental and behavioral health needs of children post-adoption. Faculty will discuss how pediatricians can support adoptive families navigating complex needs. The top three abstracts on foster care and adoption topics will be highlighted, and council awards will be presented.
