9:00AM – 7:00PM

H1012 Section on Emergency Medicine Program: Day 1

Pediatric emergency medicine (PEM) physicians often lead local disaster response, whether due to influenza, an act of terrorism, or a natural disaster. Planning for rare events may be difficult for most physicians. The morning program will provide education on disaster preparedness. The afternoon program includes scientific abstract presentations and an awards reception.

Committee for the Future Program

Moderator: Ameer Hassoun, MD, FAAP

- 9:00AM **Disaster Preparedness for the PEM Physician**
