1:00PM – 5:10PM

H2131 Section on Osteopathic Pediatricians Program: Day 1

Whether you are an osteopathic pediatrician reacquainting yourself with osteopathic manipulative treatment or an allopathic pediatrician hoping to learn more about osteopathic medicine, this section program is for you. Participants will leave with a clearer understanding of osteopathic medicine, school readiness, applied behavioral analysis, screening of adolescents, and opportunities to participate with the section.
