2:00PM – 5:00PM

H2184 Joint Program: Council on Quality Improvement and Patient Safety and Section on Telehealth Care

Maintaining a Quality and Safety Focus in an Era of Explosive Telehealth Growth

Telehealth is growing rapidly along with growing concerns about safety, quality, patient and family experience, provider experience, and regulation. This session will provide information needed to influence the development of safe and effective telehealth practice and policies, and to remain abreast of research needed to facilitate that development.
