

Sunday, October 27

8:00AM – 3:30PM

H3026 Joint Program: Section on Hospital Medicine and Section on Anesthesiology and Pain Medicine

Pediatric Pain Management for Hospitalists: A Life Course Perspective

This program will provide updates on pediatric pain management, including non-opiate pharmacologic, interventional, and multidisciplinary techniques for acute and chronic pain; symptom management at end of life; and a debate on the management of neonatal abstinence syndrome. A keynote lecture on social determinants of health for hospitalists also will be presented.
