

Sunday, October 27

9:00AM – 4:00PM

H3091 Section on Uniformed Services Program

This session will highlight topics relevant to military pediatricians, including advances in next-generation smallpox vaccines, a point-counterpoint session on treatment of autism spectrum disorders, and guidance on leadership development from an active-duty pediatrician/general officer. Awards for outstanding service, research, and career achievement also will be presented.
