

Sunday, October 27

9:00AM – 5:00PM

H3092 Council on Clinical Information Technology Program

What's Happening to Improve EHR Usability and Productivity?

The morning will feature scientific abstract presentations and posters. An afternoon panel will discuss efforts to make electronic health records less burdensome for clinicians, patients, and families. The Byron Oberst Award presentation and address will follow the panel. The program will conclude with the section business meeting and abstract awards.
