

Sunday, October 27

1:00PM – 6:00PM

H3141 Council on Injury, Violence, and Poison Prevention Program

Sudden Unexpected Infant Death (SUID) and Safe Sleep: What's Known and What's Not

Experts in infant death and safe sleep will lead a panel discussion on SUID surveillance, common findings in homes where SUIDs have occurred, collaborations between child death review teams and medical examiners, and safe sleep initiatives. Attendees will receive guidance on how to frame conversations with caregivers and use social media for advocacy and education.

- 1:00PM **Panel Discussion – SUID and Safe Sleep: What's Known and What's Not**
