

Monday, October 28

8:00AM – 12:00PM

H4022 Provisional Section on Minority Health, Equity, and Inclusion Program

Structural Racism and Child Health: The Role of the Pediatric Provider

This program will address three aspects of structural racism and their contribution to negative child and adult health outcomes: parental/youth incarceration, educational inequities, and housing isolation/discrimination. The program also will address advocacy on these issues. Oral and poster abstracts of original research projects in this field will be presented.

Welcome

Moderator: Patricia Rodriguez, MD, FAAP

8:00AM

Racial Socialization and Child Health
