

Monday, October 28

1:00PM – 4:30PM

H4121 Section on Simulation and Innovative Learning Methods Program

This session will introduce integrating simulation activity into pediatric patient safety and quality improvement activity. The VR session will include introduction to principles of learning using virtual reality and a survey of the currently available virtual reality products for providers and patients alike with an opportunity to test drive these products. This will be a highly interactive session!

- 1:00PM **Welcome**
Moderator: Marjorie Lee White, MD, FAAP
- 1:05PM **Using Simulation for Patient Safety**
Taylor Sawyer, DO, MEd, FAAP
Rachel Umoren, MD, FAAP
- 1:45PM **Virtual Reality (VR) in Pediatrics**
Rachel Umoren, MD, FAAP
- 2:15PM **Break/Orientation to VR Stations**
- 2:30PM **Current VR Applications: Hands and Eyes On!**
Todd Chang, MD, MACM; Rachel Umoren, MD, FAAP
- 4:30PM **Adjourn**
