

H2608 Joint Program: Section on Integrative Medicine and Section on Emergency Medicine Pain, Pain Go Away: Evidence-based Integrative, Non-Opioid Approaches to Pain in the Acute Care Setting

Saturday, October 3
3:00PM – 6:00PM CDT

The US is facing an opioid misuse epidemic. It also is a growing problem in pediatrics. Integrative approaches to pain offer nonpharmacological, evidence-based options that can be utilized in an acute care setting, where opioids often are the first-line treatment. Emerging evidence on the benefits of auricular acupuncture will be discussed.

3:00PM	Business Meeting and Pioneer Award <i>Moderator: Joy Weydert, MD, FAAP</i>
3:40PM	Best Poster Awards and 2020 Section on Integrative Medicine (SOIM) Grant Recipients Announcement 2019 SOIM Grant Award Oral Presentation <i>Moderator: Claudia Morris, MD, FAAP</i>
