

2021 Section on Pediatric Trainees Program (Virtual)

- Date:** The Section on Pediatric Trainees (SOPT) Program will be held live virtually on Saturday, October 9, 2021 from 1:00 PM to 5:00 PM EDT.
- Topics:** Any interesting cases.
- Submission Types:** Case Report
- Presentation Formats:** Virtual posters
- Prior Presentation:** This program only accepts original presentations. Please see general guidelines for definition of terms.
- Awards:**
Best Medical Student Abstract
Best Resident Abstract
Best Fellowship Trainee Abstract
- Travel Grants:** SOPT will reimburse the cost of one-day registration fee following the conference.
- Sponsorship:** Submissions by SOPT members and non-members are welcome. However, any abstract whose first author is not a member of the Section on Pediatric Trainees requires a sponsor who is a Section member. Additional authors do not need to be members of the Section; if they are members, one may serve as the sponsor. Note: Trainees who are AAP members are automatically members of SOPT and therefore do not need a sponsor to submit. Sponsors must ensure that non-members adhere to National Conference abstract guidelines. Authors submitting to the Section on Pediatric Trainees in need of a sponsor or with questions may contact Lawren Wooten (lew80@georgetown.edu) or Katherine Bartoletta (katherinebartoletta@gmail.com).
- PLEASE NOTE: Medical students, pediatric residents and fellowship trainees can be members of the AAP. Residents should check with their training program if they are uncertain of their membership status, as many residencies sponsor AAP membership.
